## Participants Risk Assessment (EXAMPLE)

Trading name:  
HISTORIC STUFF

Traders Name:  
TOM JONES

Principle Goods Traded:  
SHIELDS AND AXES

Insurers name:  
NMTF

Hazard identified	Persons at risk	Risk factor Hi-Med-Low	Measures required to control risk – if necessary.	Action to by taken by - Name	Date actioned - if necessary
Guy Ropes	General public	Low	See that guys are kept within trading pitch and away from public pathway. All loose rope ends are tied up.	None necessary	
Display Tables	Public and employees	Low	Ensure that they are designed to withstand the load applied. Ensure that legs and platform are sound.	None necessary	
Access to sharp axes.	General Public	High	Ensure that all axes have a tether to prevent being removed from within the stall. See that any sharpened axe has a leather guard fixed to the blade.	Tom Jones	Before 7 <sup>th</sup> June 2008
German Shepherd Dog	Anybody but me	Medium	To be kept at the back of the tent and on a leash at all public times.	Will discuss with Officials	

Name of Assessor (Usually the Trader or Group Safety Officer):  
Tom Jones

Signature of Assessor:

Date of Assessment:  
20 October 2007

Additional information:

At previous Fayre my display of axes was outside the stall. To avoid the possibility of mishandling, I have decided to keep edged axes within the tent.
